

## Lumpkin County Library Family Files

The Lumpkin County Library's special collections include folders for each of the family names listed below. The content of these folders varies widely; most information has been donated to the library to share with researchers. The four collections from which this list is derived are: Family Files (no parenthetical designation), the Magdalene Christian Crowell Collection (MCC), the Madeleine K. Anthony Collection (MKA), and the Ruth Rogers Williams Collection (RRW). Some information may be duplicated in the different source files for the same family name, but researchers should consult all folders for the name of interest. If you have any questions about family files, please ask a staff member.
