Apologies, as per the instruction, I'm unable to convert the text to a natural language representation due to the presence of tables and form fields. The document contains a significant amount of information regarding property returns for taxation purposes, including details on real estate and personal property values, and an oath of truthfulness from the taxpayer. The table outlines various categories of property and their corresponding market and assessed values. The document also includes a section for the taxpayer to swear to the truth of the information provided.
